THE COTTON CROP,

FURTHER REPORTS OF THE COTTON EXCHANGE.

Southern Georgia Unfavorable; Middle rather Favorable, and North Favorable---Florida Unfavorable.

SAVANNAH, Ga., October 11.—The following is the Cotton Exchange report for September. Georgia, ninety-three replies received from fifty-four counties. The weather during the month of September in Southern Georgia was unfavorable, there being too much rain. In Middle Georgia, it has been on the whole rather favorable, while in the Northern portion of the State it has been exceedingly favorable. Where too much rain prevailed, picking was interrupted and there was a considerable damage from rust, rot, shedding bolls, and worms was reported. In most sections of the State the plant was well fruited, but where the drought in July effected it, it was followed by excessive rains and there has been shedding of both forms and bolls. It is estimated that about one-third of the crop of the State has been picked. The yield in southern Georgia per acre will be about three hundred pounds, while in northern Georgia it will be four hundred to five hundred pounds.

FLORIDA, Oct. 11.—Twenty-three replies received from thirteen counties. The weather during the past month has been unfavorable. The excessive rains stopped the picking and caused the bolls to rot and sprout. Complaints of damage from rust, shedding and worms are general. It is estimated that three hundred and fifty pounds seed cotton to the acre may be considered a very full estimate of the production for this year's crop. As compared with last year the yield of the State will be less. In the Sea Island section there has been also too much rain. Picking was stopped and the open cotton sprouted in the bolls. This crop was very short last year, and now the prospect is that the out-turn of this year's crop may not exceed that of last year.

Foreign Miscellaneous News.

LONDON, Oct. 11.—A dispatch from Benihiscar, near Cabul, dated at a late hour on the 8th, says that news had been received that the citadel and palace of Balachissar, in Cabul, had been evacuated by the enemy. Official report from General Roberts, dated October 8th, says that at sunset General Baker was about to attack the enemy's position.

A dispatch to the *Daily News* from the British camp before Cabul, dated October 8th, says that Baker's brigade is engaging the enemy on the hills to the southwest of the city, and an obstinate struggle is expected on the 9th. The enemy expects a reinforcement of three regiments from Ghuazina.

The *Times'* dispatch from General Roberts' Camp reports that three Afghan regiments before previously unengaged with remnants of other regiments and many of the city people are opposing the advance of Baker. The Afghans occupy a strong intrenched position of the hills west of Cabul.

BERLIN, October 11.—A dispatch reports that the Russian overtures to England relative to Afghanistan have either been or are about to be made. The Czar desire the assurance that England will not occupy Herat or the Badokshan plateau.

OLDHAM, October 11.—The short time movement has become so general that it is estimated that six and a quarter million of spindles are now affected.

Liverpool Cotton Circular.

This week's circular of the Liverpool Cotton Brokers' Association says: "Cotton was heavy on Friday and Saturday with a serious decline in American. On Monday the demand revived and business has since increased and prices have advanced in American after a decline of 3-16d since Monday, recovered with a good daily demand and quotations are 1-12d to 1d higher. Sea Island was in good demand, which was freely met at about 1d decline, Futures opened dull and generally declined 1-16d since Monday. There has been a strong and fair business, and prices have advanced 9-32d for October, 5-32d for October and November deliveries, and ½ for all positions.

Cowardly Murder.

GALVESTON, October 11.—A *News* special from Sulphur Springs, Texas, says: Thursday night while the city marshal, John Norris, was taking a drink with a friend, some one outside the saloon shot Norris through the heart, killing him instantly and escaping in the darkness. The assassin is supposed to be the friend of a man shot by Norris while resisting arrest.

Death from a Fall from a Wagon.

Charlotte Observer, 11th.

John Mill, a young man who lives near Mooresville, met with a somewhat remarkable death day before yesterday afternoon. He came to Mooresville with a bale of cotton, sold it and later in the day was drinking. In the afternoon he went to his wagon, and in the attempt to get in lost his balance and fell backward to the ground, his head striking first. Several citizens who saw him fall lifted him into the wagon supposing that he was only 'dead drunk.' Shortly afterward his father, Robert Mills, went to the wagon and found that he was dead. The mayor of the town forbade the removal of the wagon or the body until the coroner could be brought to make the investigation. When the train left Mooresville, the coroner had just arrived on the spot.

Military and the Charlotte Fair.

Charlotte Observer, 11th.

Colonel C. W. Alexander has sent out to the captains of the Second regiment a premium list of the Carolina Fair Association, calling their special attention to the prize of $100 offered for the best drilled military company in the State, and inviting them to participate in the contest. It is earnestly to be hoped that a number of them will come. The prize is the only one offered, we believe, in the State this year. No inducements are held out to go to the State Fair, except the target shooting for the champion flag which only requires the presence of a team of five. Why then shouldn't the companies in central and western North Carolina at least, come to Charlotte? Our military companies —and we have five in Mecklenburg—don't want to have all the fun to themselves and will do all they can to make their visiting brethren enjoy themselves. Colonel Alexander will in a few days be able to furnish particulars as to railroad rates and will no doubt gladly give other information concerning the coutest that may be desired.

A MYSTERIOUS PROCEEDING.

The Office of a Deputy Collector Entered and Robbed.

A man giving his name as George Stephenson applied at the office of United States Deputy Collector W.W. House in Hartford Wednesday, for license to sell cigars at the depot, and after the license had been made out and the man had gone, it was discovered by Mr. House that a sum of money amounting to $10,-000, or thereabout, had been stolen from the office. On examination it was found that no such man as Stephenson was doing business at the depot, and that he had twice written his name as Stephenson on the license application. Thomas Belknap, who was in the building, saw a man at the office stairs, who was probably the thief's confederate, watching to prevent interference. Both men disappeared, and nothing has been seen of them since. The detectives are working up the case.

DEAD ON THE TRACK.

A Young Man Run Over—Murder, Suicide, or What?

Charlotte Observer, 11th.

A young man named Hook, a clerk in the store of Mr. Grifiith, who is also depot agent at Summit, S. C., on the Charlotte, Columbia & Augusta Railroad, was at Gilbert Hollow, a station but two miles north of Summit, Wednesday evening, and about dark started on the railroad, on foot, to Summit. Thursday morning Engineer Fell, of the passenger train which left Charlotte at 12:35, ran over the body, half way between the two stations named above, not having seen it until too late to check up his train. He stopped at once and Conductor Wm. Clarkson, going out, found the body terribly mangled. Two freight trains which had passed over the road during the night had both evidently run over the body without its having been discovered, and there was scarcely left a part by which it could be distinguished. The trucks and the brake-rods of the three trains had stripped it almost entirely of clothing, and rendered it a spectacle sickening in the extreme. Scattered about it were found about $20, nearly all in silver, and, strange to say, in the vest pocket the young man's watch was found uninjured and still running.

The opinion that young Hook was murdered and the body placed on the track is very generally entertained at Summit. He was perfectly sober when he left Gilbert Hollow, and the hour at which he was on the road forbids the idea that he could have laid down and gone to sleep on the track. Equally improbable is the theory of suicide. A negro with whom he had recently had a difficulty about an account due by the latter to Hook's employer, left Summit going toward Gilbert Hollow about the hour that Hook left Gilbert Hollow going to Summit, and the reasonable supposition is that they met about half way—about the point at which the body was found. Traces of blood leading in the direction of the negro's house, have also been found, and the suspected party is under arrest to await a preliminary hearing. It is represented that there is great excitement over the matter at Summit, where young Hook was very popular.

LATE STATE NOTES.

Warrenton Gazette.

Truly has this been a week of accidents with our people. Mr. Gale, while ginning cotton last Monday had his hand and arm caught between the saws and considerably lacerated. Fortunately, however, no bones were broken.

Mr. Henry Terrell, of Warren Plains, met with a most serious and painful accident last Monday. He was shooting partridges, when his gun burst and blew off his left thumb and a part of the palm of his hand. He is getting on as well as the painful nature of his wound will admit.

At Macon on Wednesday evening at six o'clock, a colored woman was filling a lamp and had a lighted one to see when it was filled; the oil in the lamp took fire and caught her clothes, burning her very badly from her waist down. Messrs. Egerton and Macy were present and extinguished the fire. She is not supposed to be seriously burned.

Warrenton News.

While Mr. D. R. Goodloe was driving last Saturday, his horse kicked and ran, throwing him out, breaking the buggy, and seriously hurting Mr. Goodloe on the leg.

We hear of a distressing accident (we suppose accident) that happened near Macon yesterday. Two little boys (we did not hear their names) were playing together, when one of them, with a knife in his hand turned to the otner, and said "I believe I'll cut your throat." And suiting the action to the word, actually cut him in such a manner as to cause death. We do not know whether the story is true or not; we hope not.

Louisburg Times.

Dr. O. L. Ellis laid upon our table yesterday a specimen of Lucerne. He says that this is the fifth crop this season.

A turnip was placed upon our table last Monday by E. N. Dent, which is the largest we have seen this season. It weighed two pounds, and was sixteen and a half inches in circumference. Since writing the above, Dr. W. C. Lankford has turniped us. His beats them all. It is seventeen and three-quarter inches in circumference and weighs two pounds and ten and a half ounces.

The North Carolina State Life Insurance Company.

The especial attention of our readers is called to the card of this excellent company. To the people at large in North Carolina no introduction to the 'State Life" is necessary, for by its 'straightforward, fair and honest course of conduct it has become a household word for integrity and fair dealing from one end of the State to the other. It does not boast of assets by the million it is true but it does hold over two dollars of assets for every dollar of liabilities, and what is more, whenever an obligation of any kind falls due it is paid and paid promptly. There is more than one family in North Carolina who are to-day living comfortably on the money paid them by the "State Life," in settlement of policy held on the life of the husband and father. The NEWS *knows* the "State Life" and can and does heartily indorse and recommend it to our people.

Another victim of Kerosene. Last night while Miss Jenny Robinson, of this city, was trying to light the fire with kerosene, the usual consequences followed. A prompt application of Henry's Carbolic Salve relieved the pain, and her recovery is now assured. Beware of counterfeits.

OUR NEW INDIAN WAR.

GENERAL CROOK SEARCHING FOR INFORMATION.

The Campaign Against the Utes---The Uintah Utes Believed to be on the War Path.

NEW YORK, October 10.—An evening paper has the following special from Rawlins: "The midnight Union Pacific train from the east brought General Crook up from Fort Steele. He continued on his way westward to Utah to find out information which he could not learn here, namely, the disposition and intentions of the Uintah Utes, he believing that the Mormons were likely to know best about the movements and intentions of this tribe. The Uintah Utes are the next Utes below the White River agency, and there is every reason for believing that they intended to join in the present revolt. The Governor of Colorado is assured that they will be found either already on the war-path or about to commence hostilities, and General Crook's present journey and inquiry will determine the matter. The fate of agent Meeker and family is still unknown.

FORSYTHE.

WINSTON, Oct. 8.—The weather is warm and somewhat cloudy, yet we have not had any rain yet.

This has been a "big day" in our town, such as we are wont to have when we make an effort. For the last thirty years it has been a custom to have a reunion of the Sabbath schools of the county, including all the schools of every denomination, every decade. This county claims the honor of having had the first Sunday school that was established in North Carolina. In 1810, about 69 years ago, we are informed that "Father Shober," a Lutheran minister, established a Sabbath school five miles south of Salem in a small church called Hopewell, and from this small germ has sprung up, as if by magic, an army whose power can not be estimated. At the end of ten years a union of the Sunday schools was held here in Salem and Mr. Henry Holder, of Winston, and another gentleman headed the Friedland school, and to-day, side by side, they headed the same school, but composed of course, of different scholars. Then the union was comparatively of the few, now its proportions are enormous.

This morning as per programme (which we inclose), the procession, composed of thirty-nine schools, formed at the court house in Winston and started for the Salem square, where a grand stand and comfortable seats had been prepared, but unfortunately the long-looked for and much needed rain came in a most inopportune time, and created quite a stampede in the line of procession and compelled the managers to repair to the Moravian church, whose capacious walls were filled to their utmost, and yet many failed to obtain admittance.

The programme of the morning was then enacted very quietly and pleasantly. The opening address of welcome by Rev. Mr. Routhaler, of the Moravian church, was especially well timed and appropriate, so also was the address of Rev. Mr. Carraway, of the Winston Methodist Episcopal church. The evening exercises came off in the grove, and everything was more pleasant. Quite a favorite feature in this part of the exercises was the love feast of cake and coffee after the Moravian style. Of the two thousand cakes baked, one thousand seven hundred and fifty were served to the members of the Sunday schools, and counting two hundred and fifty for those who failed to return in the evening, we can safely estimate the number of scholars and teachers at two thousand, and there were only twenty-nine schools represented out of the thirty-nine in the county. From this we can see in what ratio this work of the church has increased even in one county since the establishment of the first school in 1810. The evening exercises were very pleasantly performed.

Mr. Van Lennep's museum of interesting relics from the Holy Land was open for the benefit of the schools, and all greatly enjoyed it. This gentleman has delivered a series of very interesting lectures to the Moravian Sunday school and the public generally, having come from New Jersey for that purpose. A lecture by this gentleman at night and short addresses by several ministers, closed the most successful reunion ever held in Forsythe, the pioneer county for Sunday schools.

The above has absorbed most of the other items of interest. Thorne's comedy company that was billed for last Friday night *only*, has been here ever since, but performed for the most part the same plays as when here before, and not near so well. This company has lost its laurels in our town. Another is billed for Pinafore for next Friday night. The Berger Family for next week, and the Templetons soon after, so it would seem we are to have entertainments enough for this season.

WINSTON, Oct. 10.—The weather is fair and hot, and no appearance of rain. Trade lively. The hotels are having a rich time.

Thorn's company remained six days, and last night the Norcross Fifth Avenue company played the celebrated Pinafore, the extensively and widely lauded play of this century. We were all anxious to have this played, and the hall was unusually full of the most intelligent citizens of both towns. The performance was splendid, surpassing our most sanguine expectation, and the best we have ever had in Winston. I never before saw an audience so well pleased. To-night they play Trial by Jury and H. M. S. Pinafore.

Yesterday evening Mr. R. Hamilton was married in the Moravian church to Professor Agthe's daughter. The happy and handsome couple left on the five o'clock train for a Northern tour, carrying with them the many happy wishes of all their friends.

JOHNSTON.

CLAYTON, October 10.—Weather fair and warm. The chufa crop is good. Cotton is opening very fast. Most farmers are paying 40 cents per hundred for picking out.

Trade very dull.

Mrs. Dr. Dodd, wife of Dr. G. H. Dodd, a resident of Clayton, died on Saturday night, 4th inst. The funeral was preached on Monday morning by Rev. John F. Lillington.

Politics are "at a low ebb."

R. H. G.

FRANKLIN.

FRANKLINTON, October 11.—Professor Patterson's school, at Mt. Olivet, closed to-day. The speeches made by W. H. P. and E. S. Jarkins were highly applauded. Dictionaries are now in demand about Olivet.

Grand serenade in Franklinton last night. The musicians were seated in a carriage drawn by four horses and illumined with a Drummond light. The fore wheel of the carriage bursted in front of Mrs. Tucker's hotel and the Terpsichoreans were scattered right and left.

J. W. W.

PASQUOTANK.

ELIZABETH CITY, October 7.—Very hot nights. Foggy, with heavy dews.

Trade reviving in all branches.

The Methodist and Baptists (both colored) are having revivals.

Cotton is moving pretty lively. A good deal of wheat is being sown this fall. I hear of several farmers as being very successful with their second crop of Irish potatoes.

Our merchants are receiving their new goods.

Rumor says the Elizabeth City and Norfolk telegraph line is to be extended to Tarboro.

J. D. F.

GRANVILLE.

HENDERSON, Oct. 10.—The weather is extremely warm and dry.

Business is a little dull, though there is considerable cotton coming in, which meets with ready sale at nine and a half cents.

There are several new buildings going up in town. J. C. & D. Y. Cooper are building a large addition to their already very large tobacco warehouse, which when completed will make Cooper's warehouse the largest and best arranged warehouse in the State. Mr. D. Y. Cooper, who has the entire control over the business of the firm, is one of the most enterprising, energetic business young men in this or any other State. He has done much toward building up in Henderson a great tobacco market, which has caused the rapid growth of the town in every particular, and with such enterprising men as D. Y. Cooper, any town will soon become a city.

The Inferior Court for this county, has been in session this week at Oxford. No business of importance was transacted.

The Superior court for this county, will commence in Oxford next week. Judge McKoy will preside.

MR. MOON assisted by Rev. D. I. Holden, is conducting quite an interesting protracted meeting in the Methodist church. Persons come fifteen and twenty miles to hear this good woman preach. The church is crowded night and day with anxious hearers. Several persons have professed religion and many are still mourners.

A large crowd will attend the State Fair next week from Henderson and the surrounding country. J. A. C.

The Last Meeting.

The Executive Committee of the North Carolina Agricultural Society held a meeting at the Yarborough House last night, Colonel Thomas M. Holt, President, in the chair, and Captain Denson, Secretary.

The meeting was well attended, and reports were very satisfactory.

The Secretary presented a large number of donations given to the Society in the last two days, including plows, tobacco, medicines, essences, extracts, lamps, horse clothing, malt liquors, oils, lap robe, peanut digger, roasted coffee, etc.

On motion, it was ordered that there be a parade of stock on the track on Tuesday, Wednesday, Thursday, and Friday of the Fair.

The Secretary reported that up to the present time, the entries were in excess of those of last years, and that the prospect was entirely satisfactory.

After discussing and settling some matters of detail, and receiving encouraging reports from all quarters, the last meeting of 1879, previous to the Nineteenth Annual Fair, adjourned.

Popular discrimination in favor of Dr. Bull's Cough Syrup has given it a larger sale than other remedy of its class. Price 25 cents.

COMING TO THE FAIR.

AND STILL THE DONATIONS ARE COMING IN.

Further Railroad Schedules---Fair Notes Relating to Everything---Sales at the Fair Grounds.

Another long list of donations has been handed in—so long, in fact, that the NEWS cannot mention all, and even then only give those published a passing notice.

We have this valuable donation of the long established and favorite brand of spool cotton of the Messrs. A bulls-eye, white disc; center, red disc; inner, black and white disc; outer, black disc. Ricochet shots which strike the target are denoted by waving a red flag, and misses by the waving of a blue flag; a red flag is the signal of danger, and when it is displayed the firing will cease until it is lowered.

The weapons to be used are military rifles, calibre .45. No globe or peep sight allowed, but sights may be colored in any manner. The minimum trigger pull, shall be three pounds. No hair triggers allowed. No fixed or artificial rests shall be used. The position shall be standing, face to the target, the weapon to be held at the shoulder. Members of any regularly organized Club in the State, other than military, will be allowed to compete. The targets are Creedmoor and of the following dimensions for the two hundred yard range; target of wood, 6x4 feet; bulls-eye, circular, eight inches diameter; center, circular twenty-six inches diameter; inner circular forty-six inches diameter; outer, square 6x4 feet.

The values of hits are as follows: Bulls eye 5; center 4; inner 3; outer 2. Each member will be allowed five shots with no sighting shots.

FAIR NOTES.

The ladies are entering an innumerable list of pretty things, needlework, crocheting, worsted work, embroidery, etc., which shall have due notice.

The present Fair will witness a notable increase in the display of domestic preserves, pickles, cakes, etc. This is well. Let all the ladies take a cordial part.

Messrs. Law & Co. exhibit fine cutlery, crockery, glass, etc., arranged with their usual exquisite taste.

Messrs. Alfred Williams & Company will make the prettiest display in their line ever attempted at the State Fair.

Many representatives from firms abroad have already arrived. Machinery, implements, and rare and useful goods of every description are rapidly coming in. Talbott's fire engines will arrive Monday.

Let all who have articles to place on exhibition see that they are in place on Monday. Don't drive the officers to the necessity of declining an entry for premium by bring it on Wednesday, when it will be too late.

Every person who desires to enter a horse for any race on Tuesday, must give his entry to vice president Joseph A. Haywood on Monday before 5 P. M. Programme after entries are fully made up will be published daily in the morning papers. Look out for programme every day.

The Bingham cadets will be at the Fair grounds on Wednesday, as well as Thursday, as we learned from Major Bingham yesterday.

The teams for target practice from the companies of the N. C. State Guard will appear in line in front of the judges' stand at 12 M. on Thursday of the Fair.

Colonel A. B. Gorrell accompanied by some of his handsome assistant marshals arrived in the city yesterday. We congratulate the society upon so good a selection.

Look out for hand bills and notices of the sales at the Fair Grounds, of a great number of valuable articles, donations and other goods. Many novel articles rarely to be obtained in the South will be on hand and bargains are to be looked for, Full announcement will be made.

It is expected that the walking match will be settled for Friday, twenty miles go as you please, from 8:30 A. M. to 12:30 P. M. of that day. Prize, entry fees, etc., are to be announced. Entry fees will probably go to the winner with prize. Much interest to be expressed.

More horses in and more on the way. North Carolina forever! The restriction of societies purses to the horses of the State gives universal satisfaction. Horses from abroad will doubtless be able to get made up races and subscription purses. Let us encourage home enterprise.

The rush for entries was greater than ever on yesterday, and the secretary had to add to his force to accommodate the public. Liberal donations came in, besides a full line of exhibits.

Tobacco is splendidly represented from Henderson, Durham, Roxboro, Hillsboro, Winston, Richmond, Baltimore and other points.

Improved arrangements for plenty of good water at the Fair grounds have been made for this Fair.

Preparations are in progress in every direction for the procession of trades, which will be a grand feature of the Fair. Rev. Harper Whitaker, printer by trade, will respond to the address of Mr. George H. Snow when the procession reaches the grounds. The marshals of the procession are requested to meet on Monday night at the office of the Society. All persons intending to join are requested to send their names in for assignment in the line, to Z. T. Broughton.

The writer is a practical farmer, of over twenty-five year's experience, and besides his own personal knowledge on this subject, has had the advantage of free and full consultation with our very best Granville tobacco planters. It is a *complete guide* in all matters pertaining to tobacco from the seed-bed to the sales-room floor.

The price is twenty-five cents per copy, and can be had in Raleigh on the Fair grounds, or at Alfred Williams & Company's book store or by mail on application to this office.

Don't fail to secure a copy. It is indispensable to those who expect to engage in this golden industry and invaluable to *every* tobacco planter.—*Border Review.*

THE PEANUT TRADE.

STATISTICS REGARDING THE THREE PRODUCING STATES.

Facts of Interest to the Trade—Estimate of the Incoming Crop—When the Harvest Begins.

Wilmington Star.

In its review of the peanut trade for the past year the Cincinnati *Price Current* gives some facts and statistics which will doubtless be of interest to peanut men in this section. That paper says the dividing line between the old and new year in the peanut trade is the first of October. Ordinarily the harvest begins in Tennessee about the middle of September, in North Carolina about the second week in October, and in Virginia about the last of September. These three States produce about all of the peanuts which are consumed in the United States. There are some grown in other sections of the South, but merely for home consumption, and there are a few imported from Africa, but not enough to be considered in a review of the trade.

The peanut year of 1878-79 opened with the Norfolk, Va., and Wilmington, N. C., markets nearly bare of stock, while in Cincinnati there were about 36,000 bushels of the old crop on hand. The year, as a whole, has been a moderately profitable one for dealers in all sections of the country. The aggregate crop was a larger one than that of the preceding year, but the old stock on hand at the beginning was smaller, and it has been found that the supply was not excessive.

The actual crop of 1878-79 foots up as follows:

	Bushels.
Virginia,	875,000
Tennessee,	425,000
North Carolina,	90,000
Total,	1,390,000

Nearly the whole of the crop of peanuts produced in North Carolina, says the *Price Current*, finds its primary market in Wilmington, and from there it is distributed mainly to the Northwest. The qualities proved to be fair during the past year, and the average price realized by the planters was $1.10 per bushel of twenty-eight pounds, or a trifle under four cents per pound. The average price for the preceding year was eighty-five cents per bushel.

The comparison of the North Carolina crop for five years is given below:

	Bushels.
1878-9,	90,000
1877-8,	100,000
1876-7,	125,000
1875-6,	100,000
1874-5,	120,000
Total,	535,000
Annual average,	107,000

After consolidating the reports from the various States the following is given as showing the crops produced in the United States for a series of years:

	Bushels.
1878-9	1,390,000
1877-8	830,000
1876-7	1,405,000
1875-6	785,000
1874-5	670,000
Total for five years	5,080,000
Annual average	1,016,000

Showing that the peanut crop of the last season stands second in the history of the trade—for previous to 1874-5 the production was comparatively small—and was not much below the exceptionally large average of 1876-7.

The aggregate value of the peanut crop of 1878-9, in first hands, was $1,-500,000.

The movement in Cincinnati for the year is given at a glance as follows:

	Bushels.	
Stock Sept. 30, 1878,	36,330	
Receipts of all kinds,	290,000	
Total supply		326,330
Shipments for year	242,725	
Local consumption	66,205	308,930
Stock on hand Sep 30, 1879		17,400

The *Price Current* estimates the crop for 1879-80 at 125,000 bushels for North Carolina, 600,000 bushels for Tennessee, and 1,000,000 bushels for Virginia. Total 1,725,000; against total for 1878-79, 1,390,000. The increase in acreage in North Carolina is estimated 25 per cent.

Commissioners to Settle the State Debt.

In pursuance of a summons from his Excellency, the Governor, the Council of State, composed of the following members, John M. Worth, Public Treasurer; William S. Saunders, Secretary of State; Samuel L. Love, Auditor, and John C. Scarborough, Superintendent of Public Instruction, met in the Executive office.

The following communication was received from the Governor:

EXECUTIVE OFFICE.
RALEIGH, N. C., Oct. 11, 1879.

To the Council of State:

GENTLEMEN:—The act of March 4th, 1879, entitled "an act to adjust and renew a portion of the State debt," makes it the duty of the Governor to appoint

DAILY NEWS

SUNDAY, OCTOBER 12, 1879.

GEO. C. JORDAN, Editor and Prop'r.

THE Raleigh NEWS declares point blank that it will support the regular Democratic nominee. The Durham *Recorder* seems for swearing it again.

The Durham *Recorder* cannot "swear" this paper. In the first place it has no right to administer the party oath, and in the second place the NEWS has said nothing to make a recantation necessary.

THE "fool-killer" is on the war path. The Reidsville *Times* has the following:

The *Border Review* speaks of independent Democrats as "cattle." The editor must have had a horn on at the time. Any way he is managing his ink horn very unwisely if his desire be to assist in preserving good feeling in camp.

The New York *Mail* says that "New York journalism will lose one of its oldest, most capable and esteemed members when Dr. John B. Woods leaves here to accept a leading position on the San Francisco *Chronicle*." Dr. Woods has been on the staff of the New York *Sun* for years, and for a long time was night editor of that journal, a position from which he retired only on account of increasing age and necessity of relaxation from the arduous duties attaching thereto. He is known among the profession as the "Great American Condenser," and his work in this line has never been equaled. When the columns of the *Sun* were overcrowded with matter and still another column must be forced in, he would take a stick and rule and in an incredibly short time forty lines would be reduced to twenty, twenty to three or four, and so on; and this labor has helped to make the *Sun* what it is—a daily epitome of the news of the world. Several years ago it was intimated to Dr. Woods that whenever he saw fit to sever his connection with the *Sun* he might walk into the *Herald* office and name his own salary. He has for some time been engaged on a society novel, the scene being laid in New York. His desire to live on the California coast is not altogether a new fancy, he having been of the opinion for some time that his health would be the better for it. The members of the Press Club, of which he has been and is the president, will especially regret his removal to another field of labor.

KEEP THE STORY FLOATING.

It would have been only natural to suppose that when the NEWS, in its issue of October 1st explained its position, and at the same time published an authoritative denial of Colonel Holt being an "independent" candidate for Governor, common courtesy would have dictated a denial by those papers publishing the "Lochiel-Lowlander" letters, in whole or in part, of the rumors set afloat through their action The Durham *Recorder*, however, has not seen fit so to do, but in its issue of last week, after sneeringly alluding editorially to the explanation of the NEWS, goes right on in the next column and publishes a communication dated Raleigh, in which appears the following paragraph:

In regard to the *Observer* and the NEWS, there is no question about the position of the former. Its course in the past is its guarantee for the future—so says its editor. Whoever receives the regular Democratic nomination will be pushed to success with the help of its columns. Tourgee has left, and probably the NEWS will get nearer into harness. I have not the least idea that the NEWS will take up an independent unless Colonel Thomas Holt is the independent man for Governor, and Colonel Walter Clark the independent candidate for Attorney General.

The NEWS had made a denial of the story regarding Colonel Holt's position; yet the *Recorder* has not seen fit to allude to it. Neither was the statement of the NEWS fairly presented. The editorial was nothing more or less than a lecture, and as such we care little about it. We are not in leading strings. But what we wish to particularly speak of is this: After an authoritative denial had been made that Colonel Holt would not accept an independent nomination, the *Recorder* publishes the above paragraph, in the guise of a communication, without a word of comment, thereby leaving it to be inferred that Colonel Holt was intending to secretly work for such a nomination, thus doing that gentleman a great injustice; and the editorial tended to strengthen this inference when it spoke of the "erratic course" of the NEWS.

The *Recorder* has the right to publish such matters as it may choose; but it has no right to arrogate to itself the position of tutor to all the Democratic journals of the State and undertake to read out of the party each and every one that does not fall in with its idea of a newspaper. We ask the party if such a mode tends to create and perpetuate harmony in the ranks? And yet the *Recorder* is eternally prating about harmony.

We are not alone in this way of thinking. The Reidsville *Times* thinks the publication of that particular correspondence ill-advised, as it says, in speaking of the before-named paragraph:

The above is clipped from a Raleigh letter to the Durham *Recorder*. Both the NEWS and *Observer* profess to be leading organs of the North Carolina Democracy. How harmony can be preserved in a party when such open jealousies are permitted to be bruited about by correspondents partial to the one paper or the other, we cannot see. As usual we suppose the "old war of papers" will be resumed in Raleigh. Instead of a campaign for the people we are promised a tomahawk exhibition between newspapers as to which shall be the pet of the party.

However, to set the mind of the *Times* at rest we will state that we are not aware of any jealousies existing between the *Observer* and NEWS. The e papers are conducted on distinctly different plans and styles, and neither one can justly lay claim to be the "leading organ" of the Democracy. That is a matter that the people will decide. And as for a "tomahawk exhibition," that is left for the *Recorder* and its imitators to make.

A Practical Step Taken.

Springfield Republican.

The Independent Republicans of New York have taken a practical step toward making their attempt to scratch Cornell felt by advertising for the names of "Republicans willing to volunteer for work at the polls to prevent the threatened trading on the local ticket between the Republican managers and Tammany Hall." No worse bargain than that between Tammany hall and the Republican machine has been lately seen in politics, and no better work for good government can be done than by defeating it. The organized attempt to scratch the head and tail of the machine ticket, Cornell and Soule, is giving the workers more and more alarm. The organs have got past calling the signers of the independent call, a list constantly growing, Democrats in disguise, and single out the chairman of the executive committee, R. R. Bowker, for personal abuse. It appears that the movement is a Tilden "move." The organs are not wise. The putting Robinson's notably good administration and the better elements of the Democratic party which insisted on his nomination and the most promising political action of the year in the Republican party all on Tilden's side is worst the possible Republican "move."

POLITICAL NOTES.

The *Golden Rule* calls Grant "the silent agitator."

General Butler is a many sided man. He has a Grant front side, a Democratic right side, a Republican left side, and a Greenback side.

The *Irish World* says Wendell Phillips "takes a hopeful view of the future." It is the first time he ever took a hopeful view of anything.

The enthusiasm cooked by Blaine among the Ohio Radicals is as cheering and satisfying to Sherman as applause and bouquets for Miss Annie Louise Cary, of Maine, used to be to Miss Clara Louise Kellogg, of Ohio.

Louis A. Wiltz, the Democratic candidate for Governor of Louisiana, is the present Lieutenant-Governor of the State. He was the Speaker of the lower branch of the Legislature, whose hall was entered by General De Trobriand at the head of a detachment of Federal troops and its members dispersed at the command of President Grant, in 1875.

Sorosis has made up its mind to defeat Robinson, on account of his veto of the woman school bill. Mrs. Susan A. King dined with Mr. Cornell at the Fifth Avenue Hotel recently, and received from him a promise to use his influence in favor of any bill for the benefit of women, and Mr. Kelly has made a similar pledge. This ought to elect Robinson.

We know now just how Mr. A. B. Cornell looks. "Burleigh" writes to the *Journal* that "he has a face not unlike that of Rev. R. W. Clark." Now, if we only knew how Rev. R. W. Clark looks, we should be satisfied. Possibly he resembles Mr. John Smith.

Judge Settle.

Charlotte Democrat.

We never voted for Judge Settle and never expect to vote for him, but the following remarks of the Columbia (S. C.) *Register* about him we consider not only unfair, but undeserving and in bad taste:

"If Grant is to be elected we want him elected upon a strong ticket and supported by an able, upright, irreproachable cabinet. Make Settle Governor of Utah, if you will, but spare us, spare the people of this country from having him as the second official of the land."

Judge Settle is not among our favorites, and we never admired his political course after he left the Democratic party (which was a *Democratic* party indeed), but as a North Carolinian we stand ready to disapprove of such unjustifiable insinuating attacks upon him as the above. They do the Democratic party no good. If there is to be a Republican administration elected in 1880, thousands of respectable gentlemen in North Carolina would be gratified to see Judge Settle on the Republican ticket, though they might use all fair means to defeat him.

The Plant Industry.

Wilmington Review.

A new industry has recently been developed at Burgaw. Messrs. Herring & Moore, two very clever young gentlemen, who are in business at that point, are purchasing a number of roots and herbs for which they have found a market elsewhere. Prominent among these is what is known as vanilla or dog-tongue, which is brought in to them, when dried, in large quantities, and then baled and shipped to other points, the vanilla being used for flavoring smoking tobacco. The air around Burgaw seems thoroughly impregnated, and that not unpleasantly, with the fragrance of this herb.

The vanilla, however, is not the only plant which is shipped by Messrs. Herring & Moore. The common yellow flower, which grows so profusely in old fields, and often by the wayside, known as dye weed, is also purchased and shipped by them, as is also the common gallberry bush, known as inkberry, the root of which is said to be a fine febrifuge, used often instead of quinine; the Indian hemp, the root of which, exceedingly bitter to the taste, was extensively used as a febrifuge during the late war; muck-weed, otherwise known as Queen's Delight, the exact use of which we do not know, but which we think has purgative properties; the root of the pond-lily, which when gathered has a very bitter taste, rough and rasping like a green persimmon, and the common fennel bush, which is used for tanning leather.

The fact that there is a market for such things as these goes to prove a fact which we have long asserted, viz.: that the woods and swamps of the sandy belt of the Old North State contain many as yet unknown and therefore unappreciated sources of wealth. Not long since a distinguished gentleman from the Western part of the State, a gentlemnn who is an enthusiastic botanist, gathered while on a visit to Pender county over one thousand specimens of roots and herbs, all of which he thought might be found useful in manufactures or in medicines.

Who Captain Dodge Is.

Capt. Dodge of the Ninth Cavalry, the officer who took the responsibility of leaving his post at Steamboat Springs without orders and marching to Payne's relief, is a nephew of Ben, Perley Poore, the well-known journalist and compiler of the Congressional Directory. The undertaking was one that required considerable moral courage as well as physical daring. If his self-appointed expedition had resulted disastrously, Captain Dodge would have been stigmatized as either drunk or crazy, and, if he had not enjoyed the good fortune of being killed and scalped, in all probability he would have been court-martialed and cashiered. In view of the brilliant success that attended the expedition, however, it is very probable that the rending of red tape and infractions of discipline will be graciously overlooked.

A Dashing General.

Washington Post.

Citizen Foster does the best he can in his little talks to the soldiers, but it makes the boys smile when he urges them to advance on the enemy in solid columns at order arms, with canteens well supplied with ammunition, and their gleaming bayonets firmly planted in their scabbards.

VEGETINE.

Behold Me a Well Woman.

CANCER.

MONTGOMERY, ALA., June 26, 1878.

H. R. STEVENS, BOSTON.

DEAR SIR:—I have for years been a sufferer from a dreadful CANCER in my side which caused me untold agony, and as I am a widow with a family dependent upon my exertions for a support, my pain of body was only equalled by my pain of mind, at seeing my children want for bread. I was presented by a kind friend in Cincinnati with half a dozen bottles of Vegetine, and although one bottle is still untouched, behold me a well woman, completely restored in body and mind, and able to perform my accustomed duties. Long may you live! and may the history of my wonderful cure lead other like sufferers to purchase your valuable medicine, if it is with the last cent they possess.

Yours gratefully,
MRS. FULLER SUTT.

I write this to certify that I have known Mrs. Fuller Sutt from childhood, and have seen the hours of agony, that her patient womanhood has been called upon to endure. She has suffered untold agonies and now sits beside me in perfect health with her child upon her knee. The prayers of this grateful woman will ever be yours, my noble sir, and we add our testimony to the thousands that favor the greatest of all modern discoveries, "Vegetine."

Yours respectfully,
MRS. CHELLET SUMMER.

SUFFERED 25 YEARS.

Piles, Rheumatism.

GOODMAN, MISS., May 6, 1878.

H. R. STEVENS, BOSTON:

I have been suffering for 25 years with the Piles and found but little relief from any medicine that I have taken for many years past. Last winter I suffered considerably worse than ever before, also in connection with Rheumatism I was confined to my bed for several weeks. Having procured a bottle of Vegetine I took it with good effect. I continued the use, and after taking four or five bottles, find myself comparatively cured. I can cheerfully recommend it for the benefits that I have received from it.

Yours respectfully,
J. W. TAGGART.

H. R STEVENS, BOSTON:

I take great pleasure in recommending your Vegetine. I have been suffering for a long time with the Lung Disease; trying every kind of medicine that I could get, but none seemed to do me any good, until I tried your great Vegetine remedy. I had used it only a short time before I could discover a very great change in my health for the better. I don't consider that your medicine has its equal, for the diseases which you propose to cure, especially the disease that I have been afflicted with

VERMIFUGE.

SYMPTOMS OF WORMS.

THE countenance is pale and leaden-colored, with occasional flushes, or a circumscribed spot on one or both cheeks; the eyes become dull; the pupils dilate; an azure semicircle runs along the lower eye-lid; the nose is irritated, swells, and sometimes bleeds; a swelling of the upper lip; occasional headache, with humming or throbbing of the ears; an unusual secretion of saliva; slimy or furred tongue; breath very foul, particularly in the morning; appetite variable, sometimes voracious, with a gnawing sensation of the stomach, at others, entirely gone; fleeting pains in the stomach; occasional nausea and vomiting; violent pains throughout the abdomen; bowels irregular, at times costive; stools slimy, not unfrequently tinged with blood; belly swollen and hard; urine turbid; respiration occasionally difficult, and accompanied by hiccough; cough sometimes dry and convulsive; uneasy and disturbed sleep, with grinding of the teeth; temper variable, but generally irritable, &c.

Whenever the above symptoms are found to exist,
DR. C. McLANE'S VERMIFUGE will certainly effect a cure.

IT DOES NOT CONTAIN MERCURY in any form; it is an innocent preparation, *not capable of doing the slightest injury to the most tender infant.*

The genuine DR. McLANE'S VERMIFUGE bears the signatures of C. McLANE and FLEMING BROS. on the wrapper.
—:o:—

DR. C. McLANE'S
LIVER PILLS

are not recommended as a remedy "for all the ills that flesh is heir to," but in affections of the liver, and in all Bilious Complaints, Dyspepsia and Sick Headache, or diseases of that character, they stand without a rival.

AGUE AND FEVER.

No better cathartic can be used preparatory to, or after taking Quinine.

As a simple purgative they are unequaled.

BEWARE OF IMITATIONS.

The genuine are never sugar coated.

Each box has a red wax seal on the lid, with the impression DR. McLANE'S LIVER PILLS.

Each wrapper bears the signatures of C. McLANE and FLEMING BROS.

Insist upon having the genuine Dr. C. McLANE'S LIVER PILLS, prepared by Fleming Bros., of Pittsburgh, Pa., the market being full of imitations of the name *McLane*, spelled differently but same pronunciation.

PREVENTIVE OF
Malarial Diseases.

Opinion of Eminent Dr, H. R. Walton, Annapolis, Md.

Colden's **Liebig's Liquid Extract of Beef** is a most excellent preparation. It is har excellence. Superior to Cod Liver Oil or anything I have ever used in wasted or impaired constitutions, and extremely beneficial as a preventive of Malarial diseases.

GOSSIP FOR THE LADIES.

Rose, Maid and Boor.

The fairest rose of lovely June
Bloomed on its parent spray,
And birds and bees its sweetness
Were draining all the day;
The fairest maid the country 'round
Tripped blithely on her way;
Her hand she raised to pluck the flower,
And who could say her nay?

Twin roses glowed upon her cheeks,
Another in her hair;
This in her bosom placed, and both
Were more than ever fair;
It bended low and to and fro
Swung in the perfumed air;—
Alas her tiny stature!
She could not reach it there.

Reluctantly she passed, and soon
I saw a bumpkin tall
Come striding through the clover fields,
And leap the wayside wall;
His clumsy fingers grasped the rose,
And crushed its petal all,
And, one by one, beneath his feet
I saw them fluttering fall.
—JOSEPH M. PRATT.

The "train" boss: A fashionable woman on the promenade.

"That smacks of familiarity, sir," said the blushing girl, after being surprised by her lover's kiss.

In Chicago women journalists are multiplying. Here they are dividing—the honors, and adding—to their literary laurels.

The interim between the parasol and muff season is a very trying one to the ladies. They know not what to do with their hands. An appropriate time to give them away, with heart accompaniment.—*New Haven Register.*

Women are agreeable companions—in other words, tolerable wives—in the long run, according as they possess and display an intelligent interest in the affairs with which their husbands are chiefly concerned, in proportion, that is, as their intellectual sympathies and perceptions are maintained on the alert. It is the cultivation of the receptive and assimilative quality in a woman's nature which is the most important feature in her education, and it is this feature which is yet to receive the attention that is its due.—*London World.*

A seaside echo: At the bathing hour a number of young men, seated on benches, are watching the female bathers who pass down the surf. All at once two sisters issue from their bathrooms clad in the usual bathing costumes; but instead of having their legs bare, as is the rule with the French women at the seaside, these ladies wear stockings. Astonishment of the young gentlemen in question. "Why these stockings?" "Modesty, no doubt." "No; probably because their legs are badly shaped." "Wrong again; they're afraid of crabs!" At last, after a thousand guesses, each one wilder and more improbable than the last, one of the wisest of the party goes and hunts up the old woman who acts as servant to the two sisters, who is standing in front of one of the bath-houses. "Tell me, my good woman, why do those ladies bathe in stockings?" "Oh! I'll tell you, sir; it's the first time this year that the ladies have been in the water, and consequently, you understand, their feet are dirty!"

"O, youth, with smooth, sand-papered pate,
The night is dark, the hour is late,
Why do you linger on my gate?"

"I stay to help your daughter hold
This gate upon its hinges old;
Go in, old man, you're catching cold!"

The old man sought his little bed
And on it laid his patient head,
"I think my gate is safe," he said.

At every stage it is ably assisted by CUTICURA SOAP, which is a part of itself medicinally and at the same time the most delightfully fragrant and refreshing Toilet, Bath, and Nursery Soap in existence.

SALT RHEUM.

Life a burden from the sufferings caused by this terrible disease.

MESSRS. WEEKS & POTTER—Gentlemen: Please accept my most grateful thanks for the great, very great, comfort I have received from the use of your CUTICURA.

For the past eight or nine years I have been troubled with that dreadful disease, Salt Rheum,

For months I would be helpless,—my very life a burden to me.

I have used everything in the shape of medicine, both external and internal, but with no effect.

My hands were in a terrible condition, the backs of them being all raw, and I thought I would try CUTICURA.

I tried it, and lo! it was as if a miracle had been performed, for I will take my oath that in three applications my hands were as smooth as a new-born babe's.

I presume there are hundreds, if not thousands, who know of my case, among whom there may be some one similarly afflicted, and if so I would earnestly advise him to give CUTICURA a trial.

Yours, very thankfully,
A. D. BAKER, Ticket Agent C. S. R. R.

Tetter or Salt Rheum

On the hands cured. A greatful letter.

MESSRS. WEEKS & POTTER—Gentlemen:—Having been troubled for many years with the Tetter or Salt Rheum, I spent many a hard-earned dollar. I was given a trial of your CUTICURA, and, thank God, my hands are well. I never had anything do me good like that.

You may put this in the paper and welcome, and may it do some other poor sufferer the same good it has done me! I am well known here, having lived here almost fifteen years and kept boarders for a living, and sometimes my heart was sore, thinking I would have to give up altogether with my sore hands, and having a small family to take care of; but oh! thank God, my hands are well, so I again return thanks.

Yours respectfully,
ELIZABETH BUKLEY.
LITTLETON, N. H., May 30, 1878.

A party is charged and warrant issued against her for indecent exposure of person. The trial will be had to-day.

The Adah Richmond Troupe.

This company will play at Metropolitan Hall every night this week. To-morrow night they present that charming operetta *Fatinitza*. The company is highly spoken of and deserve and will doubtless have crowded houses at every performance. Here is what the Baltimore *American* says of them:

"Albaugh's Holiday-street theater is this week a charming opera house. The Ada Richmond troupe have, in their rendition of "Fatinitza," eminently sustained their high reputation. Crowded houses, comprising many of the *elite* of Baltimore, attest the great interest and admiration of the public for the opera and the company. As a musical production critics assert that "Fatinitza" is superior to any by Offenbach or Lecocq. Miss Richmond displays with splendid effect her superb contralto voice in the title role. Her acting is also excellent. Miss Bell Girard in her solos is especially effective, and as a princess has a royal mien and manner. The war correspondent, Mr. Armand, is a valuable attache to any reportorial staff where a good tenor voice, fine presence and rapidity in taking notes may be in request. The bass voice of Mr. Kent is in harmonious accord with his personation of the blusterous Russian. The trio sang by Julian, Lydia and Vladimir was much applauded and frequently encored last night, and richly merited such marked approval. The opera will be repeated during the week."

Tucker Hall To-Morrow Night.

As before announced in these columns, the Templeton Troupe present that popular play "Miss Multon" at Tucker Hall to-morrow night. The evening's entertainment will be concluded by the rendition of Templeton's comic opera, "Aimee" with John Templeton and Alice Vane figuring as the Dutch and Dutchess, and Miss Fay Templeton as Aimee. Read what the Atlanta *Constitution* says and let's give them a rousing house.

"Our people at the theater last evening were as enthusiastic as it was well deserved. The house was full and the applause was more frequent and hearty than any that our theater-goers are accustomed to hear. The truth is, that so good a performance of the play of "Miss Multon" has not often been seen here. Any assumption of the title role will always challenge a comparison with the work of one or two great artists who have made it their specialty; but such comparisons are unnecessary if not impertinent, though Alice Vane has little reason to shrink from them. Her conception of the part is clear, intelligent and refined, and elevated far above the coarseness that so often clings to it, while its dramatic expression has a strength and intensity, a delicacy of pathos, and an earnestness of passion, that often rises above the usual level of her own excellent work. The interview with her in the third act was beautifully done, and in the intense scene of the fourth act it is very high praise to say that Miss Alice Vane held her full part in the attention and sympathy of the audience. This whole scene was given, not only with the nicest polish, but with extraordinary power, and at the fall of the curtain there was such enthusiasm as is seldom witnessed in our theaters. So warm an expression of the popular esteem for these two artists, while doubtless very gratifying to them, must have been equally so to all who appreciate how fully they have merited it, and who understand how important to the culture of art in any community is the recognition by the public of those artists who are doing true and faithful work."

Rev. Dr. Mangum, Prof. Univ. of N. C. Iconcur with Bishop Doggett in his estimate of the Vest Pocket Cure.

Rev. Drs. Jeter, Broaddus, Dickinson, (Bap.) It is indorsed by the direct personal testimony of men of national fame and strictness of speech. It is not too much to say that no medicine ever had such support in its favor as a specific. The word of any one of the eminent divines who underwrite this antidote to dyspepsia has deserved weight. Their united witness joined with the experimental use and approval of the preparation by well-known physicians, removes all doubt. It is beyond question, a wonderful therapeutical agent.—Editors Religious Herald, Va.

Chaplain Randolph Macon College, Va. Many cases of Dyspepsia within my knowledge have been cured by it. Cramps, Colics Headaches and all sorts of pains from indigestion yield promptly to it. The cures of this sort are innumerable.

Rev. R. L. Dabney. LL. D., Col. Va. It is highly esteemed here by the regular Medical Faculty and the people It is excellent for indigestion and flatulent colic, sedative, soporific, tonic, slightly aperient, without nausea.

Rev. B. F. Woodward, P. E., Na. Conf. About twelve years I suffered from Dyspepsia. Falling in with this remedy, I gave it a fair trial. After its use I could eat anything with impunity. I am sure I am indebted to this medicine for what of health and physical comfort I have had for the last sixteen years. I have known many since to be relieved by its use.

Rev. Robert W. Watts, A. M., Va. I have used the mixture in my family for years, and have taken it for a Dyspepsia Colic, which threatened my life, and was cured, eating any diet without hurt. I have recommended it to other sufferers with happiest results. It is the best tonic and corrective I ever knew. For prostration from Dyspepsia or Liver Disease it is invaluable.

J. D. Eggleston, M. D., Va. It is a highly valuable remedy, and is more extensively used than any single article in the whole list of medicines, so far as I observed in my practice, for all the complaints in families from indigestion. I use it and recommend it.

Editor Richmond Christian Advocate. This remedy is of tried virtue. I have seen Dyspepsia cured completely by it. It seems to be an antidote to our "National Disease." The ingredients are not kept by the apothecaries, and have been difficult to get.

Price 25 cents per bottle. Sold by all druggists. In Raleigh, by
